

# **SWA webinar: Planning for the water, sanitation and hygiene SDG**

July 2017

# Priority: strengthening country-level processes

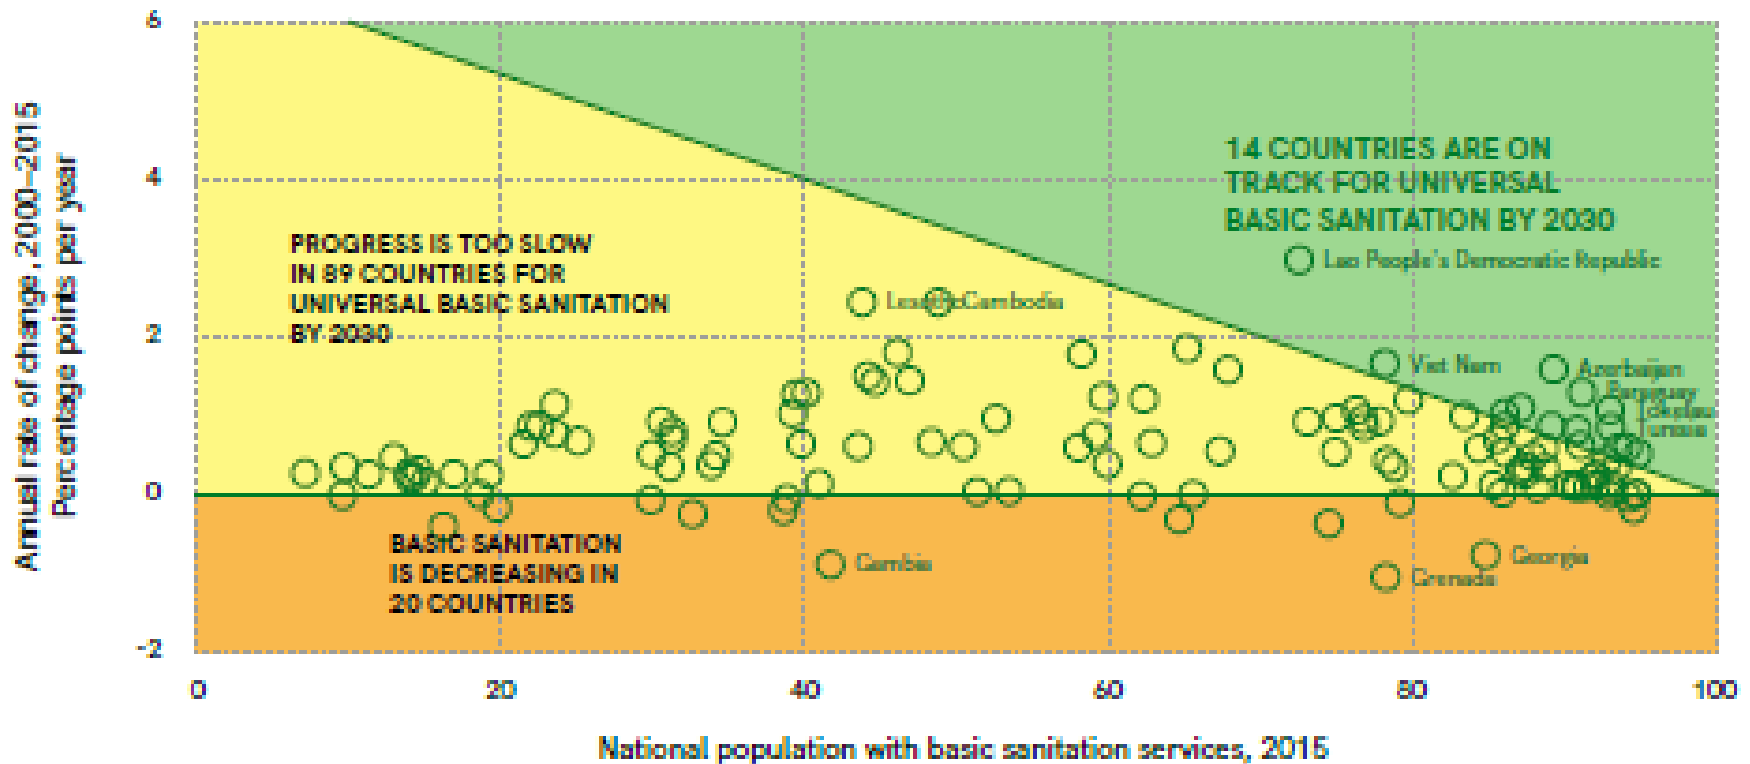

# The Scale & challenge of the SDGs

# Insights from JMP 2017

Just 1 in 10 countries below 95% coverage are on track to achieve universal basic sanitation by 2030

# Major inequalities persist

- By residence
- By wealth
- By ethnicity/language
- By disability
- By level of service

# Measures to extend services to poor populations by World Bank income group

## VULNERABLE GROUPS ARE STILL BEING LEFT BEHIND

70%

of countries have specific plans to reach low-income communities with WASH.

However, only an estimated

25%

of WASH aid was spent on basic systems for unserved people, particularly in rural areas.

# Progress since Addis

**Majority of countries aiming for universal access to basic level of services by 2030 with aspects of safely managed included to various degrees**

**33 countries shared their overviews**

## Where do we go from here?

- **Need strategies for not leaving anyone behind**
  - **Safely managed systems and “basic plus”**
- **Need to strengthen the sector**
  - **SWA Collaborative Behaviours**
  - **Building Blocks**
- **Need to continue global monitoring and support to countries through JMP and GLAAS**

# WASH Sector Building Blocks

**Sector Policy /  
Strategy**

**Institutional  
arrangement**

**Sector Financing**

**Planning,  
monitoring, and  
review**

**Capacity  
development**

## Sector Policy / Strategy

- Sector policies and strategies that identify sector goals and pathways, giving direction to sector investments
- Strategies for implementation, including agreement on implementation models / sustainable service delivery approaches
- Policies/strategies covering:
  - All sub-sectors (urban, rural, drinking water and sanitation)
  - National and subnational levels

## Planning, monitoring, and review

- Effective, inclusive and systematic planning, monitoring and evaluation of sector performance to ensure the most effective route to achieve goals
- Mid- and longer- term review of sector performance through multi-stakeholder platforms and mechanisms for sector dialogue and learning
- Clearly defined accountability mechanisms
- Data transparency and public access to information

# The SWA Collaborative Behaviors

Enhance  
government  
leadership of sector  
planning  
processes

Strengthen and use  
country systems

Use one  
information  
and mutual  
accountability  
platform

Build sustainable  
water and sanitation  
sector financing  
strategies

# Enhance government leadership of sector planning processes

Enhance  
government  
leadership of sector  
planning  
processes

## Government leadership

- Nationally agreed sector priorities, strategies and plans
- Cycle of planning, monitoring, and learning

**Partners should support Governments' ability and efforts to lead country processes**

# Types of actions towards planning

Type of activities/steps on planning for the SDGs	Already done	To be done in 6 months	To be done in 12 months	Will take more than a year
Evaluation of country performance under MDGs				
Agreed indicators for SDGs 6.1 and 6.2				
Baseline (reference situation) for SDG targets 6.1 and 6.2				
Agree and approve policy changes and strategy for SDGs				
analysis of performance on sector building blocks included				
analysis of performance on sector collaborative behaviors included				
Develop strategies to achieve the SDGs				
Develop SDG sector finance / investment plan				
Other actions or processes foreseen				
1.Validation by the government				
2.Operational plan 2016 – 2020				
3.Research complementary funding				

# Focus of the webinar

- **Summary of progress on planning so far**
- **Processes used for planning**
- **Use of evidence and data**
- **Political and multi-stakeholder engagement**
- **Priority actions and course correction**

## Questions for discussion

- Is there a process for comprehensively planning for the SDGs, including focusing on elimination of inequalities
- What challenges are faced in planning for the SDGs – e.g. in using data, identifying tools and mobilizing stakeholders
- Do SWA partners have lessons from different countries that can help to strengthen planning processes for the SDGs

**Thank you**
